School Overview

Berserker Street is a school with a growing reputation for excellence and innovation. Beautiful turn-of-the-century buildings have been upgraded to provide some of the most modern learning spaces in Rockhampton. The school is part of an international network of schools focussed on excellence in outcomes for all.

A previous National Partnership provided the school with access to substantial additional funding, which has provided high levels of classroom resourcing and teacher training. The quality of the academic programs at Berserker was verified through the recent School Review. Excellence in achievement is integral to our school.

At Berserker, we have a state-of-the-art Innovation Centre, every classroom is equipped with a digital interactive whiteboard and every student in the school has their own individual XO laptop. Unique programs include AUSLAN sign language classes in every grade, and our whole school Thinking Program developed in conjunction with international experts.

Our large Multi-Purpose Sport Stadium, with Olympic sports flooring and considerable AV resources is proving to be a draw card with the local community. Our core values are respect, excellence and appreciation of others. Our commitment to student well-being is high, with a Wellness hub staffed by a full-time Guidance Officer and Youth Worker.

A wide range of extra-curricular opportunities are available. Just some of these include a free after school sporting program, lunchtime activities such as AUSLAN signing choirs, a diverse selection of music programs, and a fully stocked games and activities centre in the library.

We work closely with our local community and welcome parental and community involvement within our school. We host several major community events throughout the year to celebrate the wonderful achievements of our students.

Principal's Foreword

Introduction

Queensland state schools annually publish information to parents about student and school performance. This document contains important information about our school's journey in 2017. I am very proud of the work of students and staff at Berserker Street State School and have pleasure in providing this report to you. It covers a wide range of areas relating to staff, student and school achievements throughout the year. This report may be accessed on our website <https://berserkerstreetss.eq.edu.au/> or a copy may be obtained from the School Office.

School Progress towards its goals in 2017

Goal	Progress	Status
Developing our whole school Thinking Program and embedding teaching of thinking in every classroom	International thinking experts, John Edwards and Bill Martin, provided professional development to all teaching staff in March and October to build capacity in teaching thinking skills. Staff were provided with resources to trial thinking skills and dispositions with their class and feedback was collected. Key staff formed a steering committee who are working together with the long-term goal of writing and implementing the Berserker Whole School Thinking Program. Feedback has been continually collected from staff around which skills and dispositions are most valuable and relevant for our students and this feedback will be used to identify the central skills and dispositions which will form the basis of the Berserker Thinking Program.	Ongoing
Developing pedagogical leadership capacity through our work with the international Schools That Deliver Network and Lynne Foley.	Leadership capacity across the school remained strong with a 6 member school leadership team working together to improve pedagogy and classroom practice across the school using a comprehensive suit of professional learning tools developed on site. The skill development of this team was greatly enhanced through ongoing involvement with the international Schools That Deliver Network. Twelve staff undertook leadership training in the "Leaders of the Future" Program with Lynne Foley and conducted a range of Leadership Projects across the school.	Ongoing
Refining our intensive support processes through Individual plans and an approach that recognises the needs of every individual child.	Members of the leadership team undertook a school visit to a school with similar complexity to share strategies for support plan writing, including OneSchool reporting alignment. The school developed and trialled improved support plan processes and developed a tracking mechanism to identify the appropriate support plans for each individual student with additional support needs. Part of the process involved analysing the impact on workload and usefulness of plans with the intention of documenting and embedding the newly developed process across the school (with ongoing refinement) in 2018.	Ongoing

Future Outlook

In 2018 the school will focus on three key areas for classroom improvement and our suite of professional development programs will be specifically tailored to focus on these areas:

- Continuing to develop and refine our whole school Thinking Program and embed the teaching of thinking in every classroom
- Refining our intensive support processes through individual plans and an approach that recognises the needs of every individual child with the intent to publish a whole school guide to whole school support and inclusion practices to ensure consistency in application.
- Trialling and implementing the latest version of the ACARA Curriculum across the school with the aim of publishing a revised Whole School Curriculum Plan by the end of 2018.

Parent and community engagement across the school is a priority, and we will continue to focus on strategies to increase parent engagement in student learning, develop effective school parent partnerships and engaging the community in significant school events. Across the school we will continue our regular cycles of peer observations, lesson observations and professional conversations

to build teacher capacity, with a focus on our whole school pedagogical model, the BOSS. We will have an intensive improvement focus driven by separate School Improvement Plan revised in regular cycles. This will incorporate a focus on target setting, tracking, monitoring and using student data to drive classroom practice.

Our School at a Glance

School Profile

Coeducational or single sex:	Coeducational
Independent Public School:	No
Year levels offered in 2017:	Prep Year - Year 6
Student enrolments for this school:	

	Total	Girls	Boys	Indigenous	Enrolment Continuity (Feb – Nov)
2015	490	221	269	130	88%
2016	504	231	273	139	93%
2017	475	221	254	161	86%

Student counts are based on the Census (August) enrolment collection.

In 2017, there were no students enrolled in a pre-Prep** program.

** pre-Prep is a kindergarten program for Aboriginal and Torres Strait Islander children, living across 35 Aboriginal and Torres Strait Islander communities, in the year before school (<https://qed.qld.gov.au/earlychildhood/families/pre-prep-indigenous>).

Characteristics of the Student Body

Overview

Berserker Street State School has a rich and diverse student population. We have children from all backgrounds including a much valued Aboriginal, Torres Strait and South Sea Islander population.

We also have several new students from China in addition to students from South East Asia (Vietnam, Burma, The Philippines), and from countries such as Brazil, Iran and Afghanistan who have added to our community in a very positive way.

We have a special education program with six separate classrooms and twenty-five full or part-time staff catering for our students with special needs both within the classroom and in small withdrawal groups for focused learning.

Average Class Sizes

The following table shows the average class size information for each phase of schooling.

AVERAGE CLASS SIZES			
Phase	2015	2016	2017
Prep – Year 3	18	17	21
Year 4 – Year 6	22	22	22

Curriculum Delivery

Our Approach to Curriculum Delivery

At Berserker Street State School we offer a range of distinctive programs both within and outside of the classroom. Our Learning Pods provide intensive support and extension opportunities for students from Prep through to Year 6. Students are ability grouped where appropriate for English and Mathematics and additional staff are provided through our Investing For Success funding to support all cohorts, resulting in small groups throughout the school.

In 2017 we introduced AUSLAN (our Languages Other Than English) program across the whole school. We have continued to work closely with world experts Dr John Edwards (who convenes the International Conference on Thinking) and Bill Martin (who works closely with leading researcher and author Art Costa) in the development of our Whole School Thinking Program. The development of this program is an ongoing priority for the school.

We value the whole student and, as such, provide a range of excursions and camps which are a key component of our curriculum. We have provided all students from Prep – Year 6 opportunities to engage in the arts, including attendance at performances at the Pilbeam Theatre.

The school has invested in establishing an Innovation Centre where students have the opportunity to immerse themselves in robotics, coding programs and 3D printing.

We of course provide a rich curriculum developed using ACARA National Curriculum. Every teacher further develops their curriculum plan through cooperative planning days each term. Teachers work with our Head of Curriculum and a small team of other teachers to ensure our rich and vibrant curriculum is continually enhanced and meeting the needs of our students.

Our training with nationally regarded experts Assoc Prof John Munro (teaching of reading) and South Australian Mathematician in Residence Ann Baker continue to influence our teaching of literacy and numeracy to ensure world's best practices are used.

We continue to provide a wide range of programs to assist students with disabilities to engage with education. These include AUSLAN, Sensory Programs, Occupational Therapy, Gross Motor, Fine Motor, Speech therapy, Social Skills and intensive literacy / numeracy intervention.

Co-curricular Activities

Our school provides a rich array of extra-curricular activities across a wide range of areas. The following are some of the opportunities provided to our students during 2017:

Music - Strings, woodwind, brass, percussion, choirs, signing choirs, marimba percussion ensembles, recorder ensembles and ukulele groups

Creativity – OptiMystics, a group of students from Year 4-6, participated in the regional OptiMinds challenge and were successful in qualifying to participate in the State OptiMinds Challenge in Brisbane.

Performance – including theatre, Twilight Concert, dance program, Eisteddfod, Fanfare, Choral Festival, community performance opportunities, performances at the Multicultural Festival, performances at the Centenary celebrations.

Art – indigenous art groups, murals, craft groups

Cooking and Gardening – Our fabulous Stephanie Alexander Kitchen Garden forms the basis of a weekly gardening and cooking program focussing on healthy eating and creative cooking. In 2017, our students also competed in the Tastes of the World Competition.

Community Service – Student Council Activities, Community gardening program, ANZAC Day Ceremonies. The school celebrated it's Centenary in 2017 and provided a 2 day program of events at the school in which many of our students and staff provided experiences for the wider community

Sport – All students in years 5 & 6 participate in an interschool sporting program, (sports offered include softball, cricket, soccer, rugby league, netball and Oz-Tag). Our Sporting Schools' program is available two afternoons per week; in addition, many students competed for regional representative sports with students representing Rockhampton in a range of sports. We continue to participate in the Education Queensland Regional Shield which takes place over 2 days in Term 3. Many of our students also participate in our signature B-Fit program which is run before and after school.

Other – NAIDOC whole school community celebration including games, painting, story-telling, film and indigenous foods, Enrichment programs at NRSHS

How Information and Communication Technologies are used to Assist Learning

Information and Communication Technologies are integrated across the curriculum at Berserker Street SS to enhance teaching and learning. 2017 saw further investment in Information Communication Technologies at Berserker Street State School with a continued focus on resourcing our Innovation Centre. This state-of-the-art centre houses high-powered computers, a broad range of robotics, and equipment for 3D Printing and Computer Aided Design. The range of ICT equipment and programs within our school, including the LEGO Robotics EV3 Mindstorm kits, LEGO WeDo and Blue-Bots kits, allow students to broaden their curriculum knowledge and understanding of digital technologies. Additionally, students in Year 4-6 engage in higher order thinking challenges through self-paced online coding programs to further enhance their innovation skills.

Every student has their own XO Computer from Prep to Year 6 which are used to value add, enhance and support curriculum offerings in a range of ways. In addition, every learning space in the school has access to high-speed wifi. This infrastructure allows every class access to a computer, which they can use, for their schoolwork, projects and homework.

Students further have access to specific resources and programs through Education Queensland's web based Learning Place.

Teachers also have access to a wide range of network based literacy and numeracy software which is used daily to enhance learning in the classroom. Every classroom is fully connected and teachers have all completed a training in integrating the touch screens and interactive whiteboards into their pedagogy. Teachers develop and publish their units of work, mark attendance via the ID Attend application and undertake semester reporting requirements on the departmental OneSchool application.

Other ICT programs in the school during 2017 also included our iPad program. This program is used in a range of settings, for example to enhance literacy groups with interviews, podcasting and listening post style activities. We also use a range of digital technologies such as document viewers and ezy-speak recordable microphones to enhance the classroom experience.

Social Climate

Overview

Berserker is a school that prides itself on social inclusion and support for students. We provided a wide range of pastoral care initiatives in 2017, including breakfast club, a Guidance Officer, mentoring, friendship groups, additional teacher aides and support staff.

We also employ a full time youth worker through our long-standing relationship with PCYC. The school also operates "ACCESS" which is our Wellness Centre. ACCESS coordinates a range of external providers who deliver high quality preventative programs aimed at social skilling, as well as physical and mental health and

well-being throughout the school. This centre also provides intensive support for students with a high degree of need.

Berserker Street State School has a comprehensive suite of programs aimed at preventing and addressing bullying. The school is proactive in maintaining a positive schoolwide approach to managing the behaviour of students. Behaviour issues, including reported incidences of bullying, are dealt with following the school's Responsible Behaviour Plan. As part of the Berserker Street SS school-wide values program, students are explicitly taught our values and behaviour expectations. This program is implemented in every classroom in term one each year. Our school values and expectations are further discussed and reinforced at school assembly each fortnight. The school's dedicated Bullying Prevention Plan is available on the school website, or in hard copy by request. The school participates in the Better Buddies, and Friends programs, and has introduced a range of structured play areas and experiences to build social skills of children.

A Virtues program is taught in every class and the school holds a special "Say No To Bullies" day to raise awareness of issues relating to Bullying with all students. The Guidance Officer is available to facilitate programs, and to work with groups or individuals.

Parent and community engagement across the school is a priority, and we continue to focus on strategies to increase parent engagement in student learning, develop effective school parent partnerships and engage the community in significant school events such as our school Sports Day, Twilight Concert and our annual Meet and Greet Evening.

Additionally, we have the following processes in place, which positively impact our social climate:

- Staff, students and parents/carers have access to a range of support personnel including our School Guidance Officer and external agencies through a referral process.
- An active School Council who enthusiastically work towards building better outcomes for our students through a range of measures, including fundraising.
- Our Youth Worker provides support and assistance to our students as identified or required
- The active promotion of a safe, supportive, positive and respectful environment for all stakeholders
- Openly celebrating the achievements of our students through school assemblies, telephone calls and emails to parents and displaying student work in the Administration Foyer and in classrooms.
- Celebrating student diversity and actively maintaining inclusive practices to support and extend all students.
- A B-Fit program which is run before and after school by staff volunteers to give students the opportunity to improve their fitness and well-being
-

'Agree' represents the percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement.

DW = Data withheld to ensure confidentiality.

Parent and community engagement

Parents are able to be involved in their child's education in many ways at Berserker Street State School. Parent volunteers were welcomed into classrooms to assist with reading groups, homework books, mathematics groups and specialised tasks such as gardening.

In addition, the school pedagogical framework, the BOSS, has a parent engagement section with clear expectations around engaging and involving parents at every level of their child's education including awareness of curriculum and assessment programs each term, and of the progress of their own child.

Community events such as the whole school sports day, Twilight Concert, Christmas Concert and the 2017 Centenary Celebrations were another way in which parents were able to be part of our school community.

Another one of our key community events was our annual NAIDOC celebration. This full day celebration involved a huge range of parents, who assisted in delivering activities, dreamtime story-telling, painting, games and food preparation.

All teachers welcomed parents to engage in their child's progress through provision of quality reporting and interview cycles, as well as an open door policy to discuss programs and progress throughout the year. A number of celebratory class events took place where parents were welcomed into the school to see their child in action in the classroom and view the work the class had completed.

The school has detailed and comprehensive consultation processes to work with parents to provide the best individualised program to meet their learning needs and draw from a wide range of options for students with disabilities.

The school is engaged with a wide range of community groups. The multicultural association and MDA work with us to teach our students about other cultures – a good example of this is the successful cooking program where students learn to cook foods from around the world, using produce they have grown in our kitchen garden.

We work closely with PCYC who provide our before and after school care program as well as a full time youth worker to support students at school. We also work with a range of community support agencies to assist families in need.

Respectful relationships programs

The school has developed and implemented a program/or programs that focus on appropriate, respectful, equitable and healthy relationships. We have embedded programs that build this understanding across the school. Every child participates in the Life Education program at no cost, thanks to community sponsorship. We also teach appropriate, respectful and helpful relationships as part of our health program. In year 6 all students are able to participate in a program delivered by specialist educators from TRUE. We understand the impact of unhealthy relationships on students and every staff member has undergone comprehensive training on the impact of trauma on children.

School Disciplinary Absences

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

SCHOOL DISCIPLINARY ABSENCES			
Type	2015	2016	2017
Short Suspensions – 1 to 10 days	49	23	28
Long Suspensions – 11 to 20 days	0	0	0
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

Environmental Footprint

Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns. In order to reduce our environmental footprint, the school has installed new high efficiency light bulbs in every room, and has also installed a solar power system which contributes to reducing our coal based power use. We also had students involved in learning activities across the school which focussed on an analysis of our energy use, and had them identify ways to further reduce them.

ENVIRONMENTAL FOOTPRINT INDICATORS		
Years	Electricity kWh	Water kL
2014-2015	256,803	907
2015-2016	161,450	1,062
2016-2017		4,221

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

Professional Development

Expenditure On and Teacher Participation in Professional Development

The total funds expended on teacher professional development in 2017 were \$67, 277.00

The major professional development initiatives are as follows: Every teacher and teacher aide participated in a range of professional development relating to effective teaching of Numeracy. As well as participating in the professional development sessions, all staff were able to see modelled lessons where new learned strategies were applied in the classroom.

Similarly, all staff participated in professional development relating to teaching of thinking with Dr John Edwards and Bill Martin, authors of "Schools That Deliver". This professional development program involved intensive learning sessions after school, and small group work through the school day. Twelve staff also received leadership training in the "Leaders of the Future" Program with Lynne Foley and conducted Leadership Projects across the school.

All teachers in the school were involved in a professional learning program including working with peers, professional observations, mentoring and modelling improve instruction across a range of priority areas such as phonemic awareness. Teachers also engaged in a range of professional conversations aimed at analysing data and developing individual, differentiated programs for students.

In addition staff attended a wide range of specialized PD in a range of areas including Leadership, Coaching, Mentoring, Assessment and First Aid. In particular, our long association with the international OUR Education Network continued and provided coaching and leadership master classes to a range of staff in the school. Leadership and support staff also received professional development focused on supporting students who have experienced trauma.

The proportion of the teaching staff involved in professional development activities during 2017 was 100%.

Key Student Outcomes

Student Attendance

Student attendance

The table below shows the attendance information for all students at this school:

STUDENT ATTENDANCE 2017			
Description	2015	2016	2017
The overall attendance rate* for the students at this school (shown as a percentage).	91%	92%	91%
The attendance rate for Indigenous students at this school (shown as a percentage).	88%	91%	89%

*The student attendance rate is generated by dividing the total of full-days and part-days that students attended, and comparing this to the total of all possible days for students to attend, expressed as a percentage.

The overall student attendance rate in 2017 for all Queensland Primary schools was 93%.

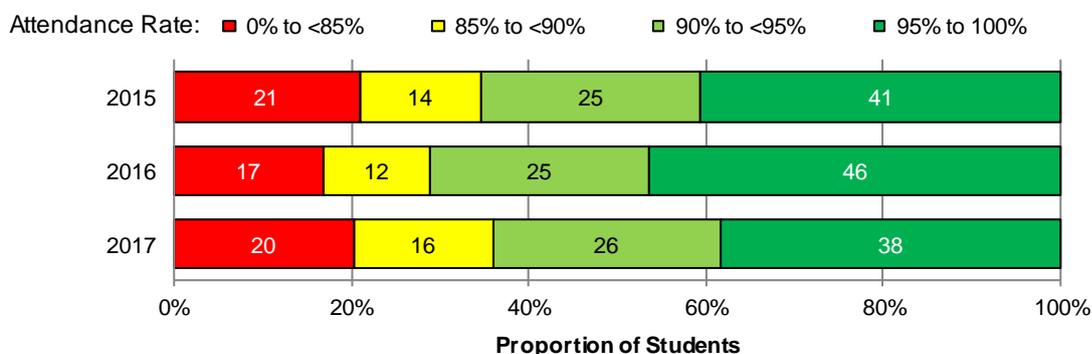

AVERAGE STUDENT ATTENDANCE RATE* (%) FOR EACH YEAR LEVEL													
Year Level	Prep	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10	Year 11	Year 12
2015	92%	89%	93%	91%	87%	92%	91%						
2016	92%	92%	91%	92%	91%	92%	92%						
2017	93%	90%	92%	91%	92%	90%	91%						

*Attendance rates effectively count attendance for every student for every day of attendance in Semester 1. The student attendance rate is generated by dividing the total of full-days and part-days that students attended, and comparing this to the total of all possible days for students to attend, expressed as a percentage.

DW = Data withheld to ensure confidentiality.

Student Attendance Distribution

The proportions of students by attendance range:

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the Department of Education procedures, *Managing Student Absences and Enforcing Enrolment and Attendance at State Schools* and *Roll Marking in State Schools*, which outline processes for managing and recording student attendance and absenteeism.

At Berserker Street State School there are a number of strategies to manage attendance. Class rolls are marked twice daily, at the commencement of the day and after lunch. Late arrivals and student departures are managed centrally through a sign in/out system at the office. Parents are now contacted via text message each day when their child is absent without explanation through the Same Day Student Absence Notification system. Where a student is absent for three consecutive days without explanation, contact is made with the family.

To proactively address attendance issues, our Indigenous Learning Centre coordinator and staff assist with absence management through working with families to resolve issues which are potential blockers to regular attendance.

The Wellness Centre coordinator also works to connect families with support agencies outside of the school to assist them in maintaining regular attendance.

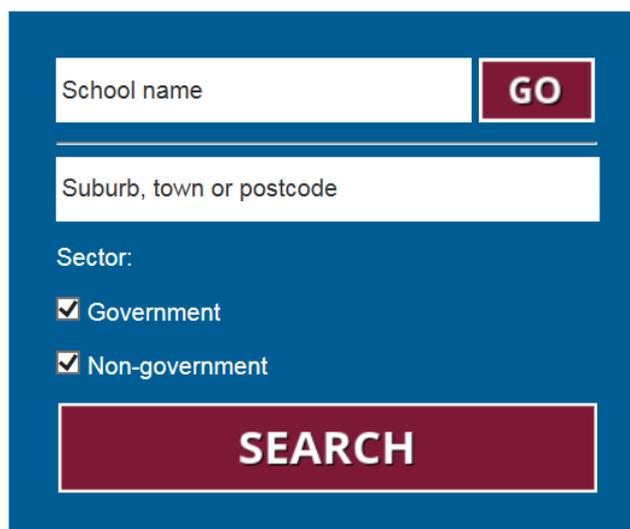

Information is provided to parents about the impact of good attendance on student achievement. "Every Day Matters" is promoted through our school community via the school newsletter and Facebook and classroom programs have emphasised the importance of punctuality and regular attendance.

NAPLAN

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at <http://www.myschool.edu.au/>.

Conclusion

As a school community, we are extremely proud of the efforts and achievements of our staff and students in 2017. We work hard to ensure that our school values of respecting each other and our differences, working hard to achieve excellence, appreciating and valuing others and encouraging a supportive culture to develop the capability of each individual are embedded and visible in our school every day.
